IT-KNOWLEDGE

- **Programming Languages**

- C (+ GLib, GObject, Gtk+)
- Vala
- Java
- HTML
- JavaScript
- GJS (GNOME JavaScript)
- \LaTeX & $\text{bib}\TeX$

- **Operating Systems**

- GNU/Linux
- Android

- Windows

- *Nix

- **IT-Tools**

- Eclipse
- CMake
- GNU Make
- Bazaar (Distributed Version Control System)
- Google Docs
- LibreOffice
- GIMP
- Inkscape

EDUCATION

2017-02 - **Lexicon**

Introductory course for potentially starting a course in Java/Java EE with focus on the web

2011 - 2014 **University of Skövde**

Computer Science (No Bachelor).

2005 - 2008 **Strömstad Gymnasium**

Electricians program with focus on Computers and such: Programming, Web design, Networks, etc.

WORKING LIFE

HC Telecom **Worked as Fiber-optics welder**

2016-06 - 2016-08 The work consisted of - among other things - going home to customers and installing fiber-optical equipment for telecommunications. Reference letter can be provided (in Swedish)

Other employments are not relevant.

PERSONAL TRAITS

The personal traits that I want to present are that I can be quite stubborn at times, and humble in others, methodical, soft (litteraly), punctual, realistic, “unique,” and open.

OTHER MERITS

- **CCNA Certificate**, I rely do not have any intresst in network administration.
- **Teaching**, during the spring semester 2016 I had an internship at Strömstad Gymnasium (Upper secondary high school) during which I helped out with teaching programming, web design, but also gave the pupils some fundamentals in how they should think as programmers.

LANGUAGE SKILLS

| | |
|----------------|--|
| English | Is like my second language, it is a language that I feel at home in both in text and speech. |
| Swedish | Mother tongue. |

INTERESTS

My interests are mostly in the realm of technology in general, but in especially whin it comes to Free/Open Software (not to be confused with Freeware).

During my free time I - beyond programming - play games (whilst I livestream), write short stories, and write essays on different subjects (that I post on social media). For the most part I write in English as it gives me a wider audience and it can sometimes be easier to say what I want to be said.
